Individualized Curriculum (IC): Fellows are granted 32 weeks (8 EUs) for individualized curriculum over the 2-year fellowship program. Blocks can be tailored to the fellow's individual goals. See list below of example individualized curriculum electives available to the fellow. Electives may include:

Core Rotations: Fellows are required to complete 32 weeks (8 EUs) of core clinical rotations over the 2-year fellowship. Core rotations include Pediatric Hospital Medicine, Pediatric Intensive Care Unit (PICU), Pediatric Surgery, Pediatric Cardiology, Pediatric Neurology, Pediatric Endocrinology, Pediatric Hematology/Oncology, Pediatric Infectious Disease, Pediatric Radiology, Pediatric Rehabilitation, Pediatric Palliative Care, Pediatric Geriatrics, Pediatric Emergency Medicine, Pediatric Hospital Medicine, Pediatric Intensive Care Unit (PICU), Pediatric Surgery, Pediatric Cardiology, Pediatric Neurology, Pediatric Endocrinology, Pediatric Hematology/Oncology, Pediatric Infectious Disease, Pediatric Radiology, Pediatric Rehabilitation, Pediatric Palliative Care, Pediatric Geriatrics, Pediatric Emergency Medicine, and the required Longitudinal Quality Improvement course.

Systems and Scholarship (S&S): Fellows are required to complete 32 weeks (8 EUs) dedicated to scholarly activity over the 2-year fellowship including manuscript preparation, project completion, and presentation of results to the Scholarship Oversight Committee. The required longitudinal quality improvement course with capstone project is completed in year 1 of fellowship.

Vacation: Fellows are entitled to 4 weeks of vacation each year of the 2-year fellowship. Vacation cannot be taken during "Core" rotation blocks.

Site 1= Dayton Children's Hospital

Site 2= Wright Patterson Airforce Base Medical Center

Site 3= Kettering Medical Center

Electives for Individual Curriculum Rotations*:

Cardiology Inpatient/Outpatient Institution 1

Infectious Disease Inpatient/Outpatient Institution 1

Genetics Inpatient/Outpatient Institution 1

Pulmonology Inpatient Institution 1

Child Advocacy/Child Abuse Inpatient/Outpatient 1

Palliative Care Inpatient Institution 1

Pediatric Emergency Medicine Inpatient Institution 1

Sedation/Anesthesia/Pain Management Inpatient Institution 1

Medical Informatics Inpatient Institution 1

Hospital Medicine Inpatient Institution 1

Breast Feeding Medicine Inpatient/Outpatient Institution 1

Patient Experience Inpatient/Outpatient Institution 1

Healthcare Administration/Leadership Inpatient/Outpatient Institution 1

Gastroenterology Inpatient/Outpatient Institution 1

Hematology/Oncology Inpatient/Outpatient Institution 1

Endocrinology Inpatient/Outpatient Institution 1

Allergy/Immunology Outpatient Institution 1

Pediatric Radiology Outpatient Institution 1

Neonatal Intensive Care Unit (NICU) Inpatient Institution 1

Transport Medicine Institution 1

Urgent Care Institution 1

Rheumatology Inpatient/Outpatient Institution 1

Well Baby Nursery Inpatient/Outpatient Institution 2

Medical Education Inpatient/Outpatient Institution 1

Medical Informatics Inpatient/Outpatient Institution 1

Complex Care/TCU Inpatient/Outpatient Institution 1

***Elective Time** inpatient /outpatient ratio vary depending on elective. The distribution of time is reflective of a practicing subspecialist in that subspecialty (e.g., Cardiology is 60% inpatient/40% Outpatient, Gastroenterology is 60% inpatient/40% Outpatient). Fellows will be encouraged to perform all inpatient consults and responsible activities.
