

Dayton Children's annual report 2021

Our mission is the relentless pursuit of optimal health for every child within our reach. We work toward that goal every day, with every child who comes to see us — no matter if it's for a simple COVID test, a specialist visit or a stay in our newborn intensive care unit.

 Mental health evaluations.....6,018
 Mental Health Resource Connection referrals8,101

In May, we launched the *On Our Sleeves*® movement in our region to help break the stigma around mental health by sparking conversations and providing tips, tools and resources.

In fall 2020, Dayton Children's opened a day treatment program. This program eases the transition from the inpatient unit back to everyday life, providing intensive help with avoiding self-harm and increasing recovery coping skills.

community benefit and support

Dayton Children's is the tenth largest employer in the region and pumps hundreds of millions of dollars into the community in wages. Our success means that we can also be a key contributor to efforts that help reinvent the path to health care and support kids outside the hospital walls. In return, our community has always been generous in helping Dayton Children's go from good to great.

news-making moments

new strategic plan

Adopted a new strategic roadmap that will guide our efforts to reinvent the path to children's health in our region and beyond.

new spaces

Expanded the Dayton Children's footprint in Beavercreek with a new outpatient care center and a Kids Express.

innovation

Launched the first world trial of a new gene therapy for a rare disorder and introduced a new minimally invasive spine surgery.

canine co-pilots

Welcomed two new furry friends — canine copilots — to encourage children and speed their recovery.

Partners for Kids

Teamed up with Nationwide Children's and CareSource in Partners for Kids to bring better care to kids everywhere.

locally specialized, nationally recognized
