

social work

The department of social work recognizes the importance of the family system and the various factors that can affect quality of life inside and outside of the home. Social workers are available to all families served. We provide 24-hour social work coverage seven days a week.

If you need social work assistance, contact the department at 937-641-5300 or ask a member of your medical team. If needing to speak to a social worker after business hours, on the weekends, and/or on holidays, you can contact the operator at 937-641-3000.

how social work can help

Each social worker is uniquely qualified and has extensive experience to assist families with a variety of obstacles and concerns. See below how we may be able to assist you and your family.
